PERSONAL STATEMENT

I am a Full Stack Web Developer with a real passion for Front-End. I particularly enjoy working with Javascript and JS frameworks. I love creating user friendly web apps using Node.js, AngularJS, ReactJS, jQuery, Sass and more.

WORK EXPERIENCE

1 Mar 2016–Present

Web Developer

Cult Beauty, London (United Kingdom)

Currently working on transforming Cult Beauty to an established online retailer. Using everything JavaScript to handle scale and -of course- write cool features!

14 Jun 2014–18 Feb 2016

Web Developer

IDG UK, London (United Kingdom)

IDG UK is a digital publisher company and my role included maintaining, improving and extending the current websites, including PC Advisor, Macworld UK, ComputerWorld UK, Digital Arts Online UK and TechWorld. Additionally, I created bespoke microsites and worked within specialised teams to rebuild websites from scratch. The technologies and frameworks I used daily were:

- Coldfusion
- Javascript
- jQuery
- Sass, Scss
- RequireJS

As a direct result of my work, revenue and traffic across all core IDG Websites were significantly increased.

28 Jan 2013–4 Jun 2014

Software Developer

Kantar Worldpanel, London (United Kingdom)

Took ownership of small projects, produced system and user documentation and trained other developers, all in a fast paced environment. My tools of choice were PHP, MySQL/MS SQL, CSS, JavaScript, jQuery and Ajax. Additionally, I often designed Office plugins in VBA.

During my employment, I proposed, designed and implemented automations to processes involving hundreds of employees. As a result, the company experienced a significant increase in productivity in my areas of involvement.

Dec 2013–Feb 2014

Website Developer

Up Skill 4 Life Ltd, London (United Kingdom)

Tania Papazafeiropoulou - Curriculum vitae

I was responsible for planning, developing, testing and delivering the company's website. The technologies used were HTML5, PHP, CSS3, JavaScript, jQuery and Ajax.

Website URL: <http://www.upskill4life.com>

1 Sep 2010–30 Jun 2011

Computer Lab Assistant

TechnoPlus

Kiprou 38, 26441 Patras (Greece)

My major tasks were providing support and guidance to students throughout the learning process, in the fields of web page design, image/video editing and advanced computer usage concepts. Furthermore, I provided secretarial support and updated/maintained the company's website.

1 Feb 2008–16 Jun 2008

Assembly Lab Assistant

University Of Patras, Patras (Greece)

Supervising and guiding the students through advanced Assembly projects.

EDUCATION AND TRAINING

1 Sep 2005–15 Oct 2010

M.Eng. in Computer Engineering & Informatics (5 year Diploma)

University of Patras, Patras (Greece)

S/W Programming, H/W Programming, Computer Science

15 Sep 2011–17 Aug 2012

MSc in Bioinformatics

University of Edinburgh, Edinburgh (United Kingdom)

Next Generation Sequencing, Bioinformatics Tools, Biological Data Analysis, R (Statistical Computing), Perl for Bioinformatics

PERSONAL SKILLS

Technologies

NodeJs, ExpressJS, ReactJs and anything Javascript

Sass/Scss, Selenium WebdriverIO

Mother tongue

Greek

Other languages

| | UNDERSTANDING | | SPEAKING | | WRITING |
|---------------|---------------|---------|--------------------|-------------------|---------|
| | Listening | Reading | Spoken interaction | Spoken production | |
| English | C1 | C2 | C1 | C1 | C1 |
| French | A2 | B1 | A1 | A1 | A1 |
| Ancient Greek | A2 | B2 | A1 | A1 | A2 |

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages

Digital competence

Software Programming (Node.js, AngularJS, HTML5, Javascript, jQuery, Ajax, Sass/Scss, Css3, MySQL, MSSQL, Coldfusion, PHP, C, C++, C#, Java, VBA, Perl, Python, R and Matlab, XML / XSL).

Hardware Programming (including Arduino) and Theoretical Computing.

Tania Papazafeiropoulou - Curriculum vitae

Other skills When I'm not playing with new technologies or working on fun little projects, in my free time I usually practice singing with my band or go dancing with my friends. For more relaxing times, I enjoy reading a good book.

Also, I love swimming and water sports.

I studied piano for 9 years. Additionally, I took theory of music, solfège, dictée and harmony lessons and was a choir member. Also, I took ballet dancing and painting lessons.

Driving license B

ADDITIONAL INFORMATION

- 2009 Protein Homology Modelling Techniques team, part of the Artificial Intelligence group, Computer Engineering Informatics Department, University of Patras.

- 2010 Diploma thesis: "Bioinformatics: Tools used for protein homology modelling."

Designed a website that guided the user through the process of creating a protein model by homology using Bioinformatics tools.

- 2012 Master thesis: "Finding New Drug Targets"

Designed and implemented a full web site/tool that extracts information from different high throughput data sets measured for budding yeast into a database. The combined data were analysed in order to determine characteristics of the different genes, in particular the characteristics of genes involved in responses to stress. Such genes may make ideal drug targets because they are activated by the pathogenic yeast, *Candida albicans*, when it invades a human host.
